Seller does by these presents hereby sell, transfer and deliver unto Purchaser (which means all Purchaser(s) jointly, severally and solidarily), under the terms and conditions set forth on the face and reverse side hereof, the property described below, delivery and acceptance of which in good order is hereby accepted by Purchaser. Said property to be located, unless otherwise noted at the Purchaser's address first shown above.

This sale is made and accepted for a Total Sale Price as shown above and the unpaid balance evidenced by a Promissory Note of even date, made and executed by the Purchaser, in the amount shown above as Total of Payments, payable to bearer in installments as shown in the above Payment Schedule and is secured by a purchase money security interest on the property described below.

Description of Property:

Delinquency Charges: In the event that Purchaser fails to pay any installment payment in full within ten (10) days of its regularly scheduled due date, a Delinquency Charge will be assessed equal to five (5%) percent of the unpaid amount of the installment in default or \$10.00, whichever is greater.

Prepayment: Upon prepayment of this Contract in full or upon acceleration of maturity, Purchaser shall receive a rebate of the unearned Finance Charge based upon the table of 78's after first deducting from the Finance Charge a prepayment charge of \$25.00 in one-half (1/2) of the term of the contract term has elapsed. No rebate will be made of less than \$100.

In the event that an installment is not paid within 10 days after its due date, you may unilaterally grant a deferral of the delinquent installment and collect a deferral charge calculated by applying the Contract Rate to the amount deferred over the period of deferral without regard to the differences in the length of months but proportionately for a part of a month, counting each day as a portion of a month. Such deferral charge may be collected at the time it is assessed or at any time thereafter. At Lender's option deferral charges on a precomputed consumer credit transaction may be computed on a pro rata basis or any other method of calculation that does not yield a greater sum than the maximum rates permitted in this Chapter. In lieu of the above, the entire unpaid balance of the transaction may be deferred by charging an amount equal to the rate previously stated to the consumer times the balance at the time of deferral for the period of deferral. In such a case, the transaction maturity date will be extended by the number of months that the balance is deferred.
